1969 Buick 350 V8 Engine

Buick built a 350 engine starting in 1968, joining GM in the family of small-block V8 engines. Buick's 350 was different than the rest of GM's 350 engines. It had a wider bore inside the

Read Book 1969 Buick 350 V8 Engine

engine, which made it wider, and it had an external oil pump, which was unusual for engines at the time. The 350 was used from 1968 to 1980 in large Buicks.
