Tuning the Popular BMW 3 Series. "BMW 3 series tuning." The BMW 3 series was first launched in 1975 with the E21, however it was not until 1982 the 3 series became a success with the E30. In particular the "Ultimate Driving Machine" really kicked things off in 1985 with the E30 M3 which was produced as a race car for the road.

Tuning the BMW 3 Series: best performance mods

The model that truly launched BMW into the performance arena in the United States were the second generation of 3-series cars, the "E30" chassis cars. These 1980s and 1990s era cars were offered with a wide range of engine/transmission combinations, but the basic chassis was so well engineered that owners were able to enjoy an outstanding combination of comfort and handling performance regardless of the powertrain.
