The Velvet Drive transmission, founded by Regal-Beloit in 1948, was purchased by Borg Warner in 1995. The transmissions were and have been particularly suited to the marine industry, for installation on many watercraft, including sailboats, fishing trawlers, inboard cruisers, sport runabouts and large yachts.

When told it's a Borg Warner Velvet Drive 1:1 in an inboard, he determined "it's probably the 12 degree mounting". Anyone here know exactly which angle dip stick tube I need for this? We already tried a replacement from E Basic Power of the Indmar style, into the side of the engine block tube and dip stick, and that didn't work out too well.
