Electronic Study Guide Uvt
Ultraviolet transmission or UV transmittance (UVT) is a water quality measurement. The method works by measuring the amount of UV light, typically at 254 nm, that is able to pass through a water sample of a given path length. It is defined as the ratio of the intensity of light after passing through a water sample (I) to the intensity of light at the source (I 0), expressed as a percentage:

What is UV Transmittance (UVT) testing in water treatment?
