Global information and world communication (edition ...

The New World Information and Communication Order is a term coined in a debate over media representations of the developing world in UNESCO in the late 1970s early 1980s. The NWICO movement was part of a broader effort to formally tackle global economic inequality that was viewed as a legacy of imperialism upon the global south. The term was widely used by the MacBride Commission, a UNESCO panel chaired by Nobel Peace Prize laureate Seán MacBride, which was charged with creation of a set of ...
