Leisure Bay Hot Tub Repair

Doing the work of repairing your hot tub gives you at least two benefits: one is that you can lessen the hot tub repair cost since you will not be hiring hot tub service; and the other one is that while you are doing the work, you are learning things on how to do the repair.

How to Repair your Hot Tub | Leisure Bay Spas

Hot tub motor is one of the most important parts of the hot tub itself, because it is the one that drives almost all the other parts necessary for water circulation, such as the water pump. Without the motor, your water will just lay stagnant in there, and your hot tub will just be like a swimming pool.

Rinse the underside of your hot tub cover frequently with a garden hose to keep algae, mold, and mildew at bay. Rinse your filters every month to keep clear water flowing. (TRI-X ® filters are dishwasher-safe.) Use an instant filter cleaner spray each month to break up oil and other stubborn buildup.

Fix Your Hot Tub with This Complete Troubleshooting Guide ...

Once you bleed the air out, turn the hot tub on and see if the water flow has returned to normal. In some cases, you may have to bleed the system more than once to get all the air trapped in your hot tub's system. Important: Always make sure the system is off when you're bleeding air out. Also make sure you close bleed screws quickly to prevent water from spraying once the air has escaped.
