Gizmo of the Week: Mouse Genetics (One Trait) by Laura Gallagher July 17, 2017. Gregor Mendel is famous for his studies of heredity in pea plants, but he actually began his experiments with mice. After breeding mice in his rooms at the monastery, Mendel had to switch to plants because the bishop disapproved of a study having to do with animal sex. Students can recreate what Mendel's mice experiments might have looked like with the Mouse Genetics (One Trait) Gizmo.
