Step 14: Putting on your Modified Oil Pump. Before you bolt the pump down get the chain in the teeth of the oil pump. Then you can bolt it down. this is the only way you will be able to get the chain on the pump properly. If you dont do it this way you could damage the chain or stretch it and you dont want to do that.

Before you begin disassembling you transmission, find a flat, clean workbench to work on. You'll want to carefully lay out all of the parts as you remove them so that you can keep track of them for when reassembly begins. To properly assemble the transmission, the tranny should be placed on the workbench with the input shaft facing down.
