The beginning of his life as a postman, to finding his love, to meeting influential people, and his battle with leukemia. It's amazing that he writes humor in spite of his battles. Which is why he became my inspiration in writing.

Thunder is created when lightning passes through the air. The lightning discharge heats the air rapidly and causes it to expand. The temperature of the air in the lightning channel may reach as high as 50,000 degrees Fahrenheit, 5 times hotter than the surface of the sun.
