As part of the journal's commitment to supporting authors at every step of the publishing process, the journal requires the submitting author (only) to provide an ORCID iD when submitting a manuscript.

Cancer : Author Guidelines - Wiley Online Library

Introduction. Airborne particles of biological origin including bacteria, fungi and viruses, are commonly present in the air we breathe. Any respiratory pathogens able to remain viable (infectious) after aerosolization and air transport are a potential cause of respiratory disease, and they are often associated with other substances to form 'complex particles' (Tang 2009).

Scrivener Publishing

A 0.9% solution of sodium chloride (i.e., isotonic) has approximately the same osmotic pressure as body fluids. Sodium chloride provides electrolyte supplementation. Sodium is the major cation of extracellular fluid and functions principally in the control of water distribution, fluid and electrolyte balance, and osmotic pressure of body fluids.
